CHAIRMAN'S MESSAGE

Mansarovar Ayurveda Medical College Hospital and Research Centre, Bhopal (M.P.) is established in 2015. The college of Ayurveda has steadily progress towards creating an outstanding position for itself. We are one of those very rare colleges to have an intake capacity of 100 students. Our focus is to inculcate Ayurvedic graduates with theoretical, Practical & clinical knowledge to serve humanity.

We believe that imparting knowledge to the students is a process of giving them the skills, professionalism, vision and wisdom for their overall development, apart from just improving textbook knowledge.

We have a team of skilled, experienced & dedicated professors, administrative and non — teaching staff who are committed to achieve excellence in the every domain. We promote and support the participation of our faculty as well as the students in various seminars and the events organized for development of Ayurveda. We also emphasise on imparting value education.

College was established with the intention to serve Ayurveda with its full dedication to create professionals in the field of Ayurveda who could lead this science towards its greatness and dignity.

I hope that in the times to come we all will be together in this mission.

Highly qualified, experienced and enthusiastic staff is the backbone of this institute. I am sure that with their untiring efforts & dedication, this college will carve a niche in Ayurvedic field for itself at the National & Global level

Shri K.K. Tiwari CMD, Mansarovar Group Of Institutions, Bhopal & Sehore, Madhya Pradesh

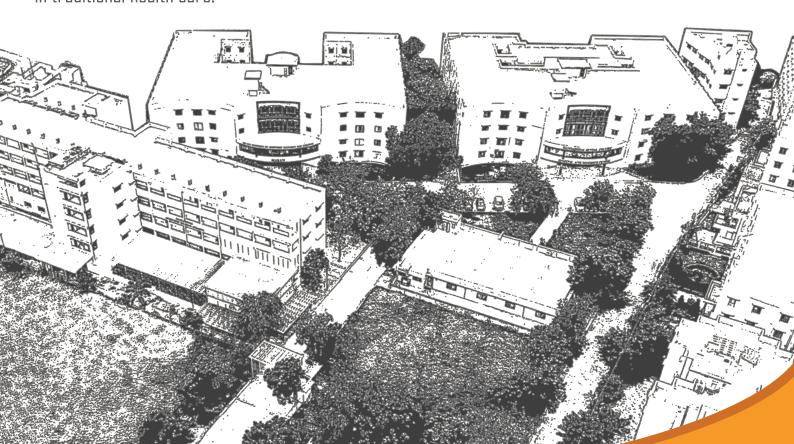

ABOUT THE COLLEGE

Mansarovar Ayurvedic Medical College was established in 2015 by the Sri Sai Gramothan Samiti. The college has been approved by Central Council of Indian Medicine, New Delhi & Govt. of India (AYUSH) and affiliated to the Madhya Pradesh Medical Health Science University, Jabalpur (M.P.)

We are dedicated to provide superior quality education in Ayurveda, with state of art infrastructure, to enhance the research and learning experience, and facilitate the training of a skilled work force to meet the current and future needs of Ayurvedic fields of medical science. Other goals of the institution are:

- To make the institution unique in the field of Ayurveda.
- To prepare students with excellent humanitarian values.
- To prepare the most competent, high quality doctors.

The B.A.M.S. course provides a vibrant environment where science, education and technology go hand in hand. It catalyzes an environment for innovative teachings and research in the field of Ayurvedic management of different types of diseases. Ayurveda takes care of the disabled and diseased - those who need to be protected, recovered and saved from their disabilities and ailments. These goals are achieved by providing excellent training in the field of preparation of medicine and clinical training of students in disease management, so that they become competent and can satisfy the needs of society in traditional health care.

MISSION & VISSION

MISSION

The mission of Mansarovar Ayurvedic Medical College and Hospital is defined by its commitment to encourage its efficiency and high professional standards in Teaching, Quality Healthcare & Research.

VISION

To become a global centre of excellence in Ayurveda Medical education and Healthcare.

 of the corresponding year.

DURATION OF COURSE & NUMBER OF SEATS IN THE INSTITUTION

- Duration: 4.5 years + 1 year internship
- No. of Seats 100

DEPARTMENTS

Department of Kayachikitsa (General Medicine)

Imparts training in the division of General Medicine in Ayurveda. In ancient times, the practice of Ayurveda comprised of the two schools of medicine and surgery. Kayachikitsa, representing the school of medicine forms the basis for all other branches of Ayurvedic treatment and hence this department lays the foundation for shaping a skilled Ayurvedic physician.

Department of Shalya Tantra (Surgery)

Deals with the branch of Ayurvedic surgery and provides a basic understanding of the principles of modern surgery. Bone setting, application of medicated thread (ksharasutra) for management of haemorrhoids and fistula in ano, application of leech as well as management of cuts and wounds are the areas of strength in Ayurvedic surgery.

Department of Shalakya Tantra (ENT, Dentistry and Ophthalmology)

Imparts training in areas of specialization like ENT, Ophthalmology, Dentistry and diseases of the head. Special training is given on management of certain eye diseases, conditions like sinusitis, migraine and such other conditions for which Ayurvedic treatment is effective.

Department of Stri Roga and Prasuti Tantra (Gynaecology, Obstetrics)

Imparts training in Ayurvedic Gynaecology, Obstetrics and Paediatrics. Gynaecology deals with menstrual disorders, diseases of the female genital tract and veneral diseases. Ayurveda advises a special regimen for care of the pregnant woman.

Department of Dravyaguna (Ayurvedic Pharmacology)

Deals with principles of Ayurvedic pharmacognosy and pharmacology with a special focus on identification of controversial drugs, adulterants and substitutes used in Ayurvedic practice. Ayurveda has developed a unique approach to understanding pharmacology of natural substances through meticulous analysis of taste, physico-chemical properties, potency and bio-transformation of the drug.

Kaumarabhritya (Paediatrics)

Ayurveda offers special treatment modalities for post natal care of the mother. Paediatrics deals with care of the new born as well as diseases affecting children. Traditions of Ayurvedic paediatrics are still alive in India.

Department of Swasthyavritta (Social and Preventative Medicine)

Imparts training on the principles and practice of Social and Preventative Medicine at both the personal and communal levels. Promotion of positive health is dealt with from the Ayurvedic viewpoint.

Naturopathy and Yoga also come under the purview of this department.

Department of Maulika Siddhanta (Basic Principles of Ayurveda)

This department deals with the teaching of subjects that are foundational for the study of Ayurveda like Sanskrit, basic principles, classical Ayurvedic texts, history of Ayurveda and epistemology. Proficiency in Sanskrit is indispensible to properly understand the import of classical Ayurvedic writings.

Department of Rasashastra and Bhaishajya Kalpana (Medicinal Chemistry and Pharmacy)

With the help of well equipped labs, this department imparts training in medicinal chemistry and preparation of highly potent medicines from minerals and metals. It also deals with the principles and practice of Ayurvedic Pharmacy with its varied pharamaceutical methods and dosage forms.

Department of Rachana Sharir (Anatomy)

The department of anatomy provides rigorous training in dissecting cadavers and critically examines both ancient and modern views on anatomy. The surgical school of Ayurveda pioneered the technique of treating dead bodies in flowing water and exposing the underlying structures by scraping the skin using soft instruments to gain accurate knowledge of minute structures that make up the human body.

Department of Roga Nidan & Vikriti Vigyan (Pathology)

This department deals with nosology (classification of diseases) and techniques of diagnosis. Training is given in both ancient methods of diagnosis and relevant modern investigations. Ayurveda lays great stress on detecting diseases in the very early stages of development and has developed an elaborate system of subtle diagnostic techniques to identify imbalances in the body before they transform into complicated disease processes.

DEPARTMENTS

Department of Agada Tantra and Vyavaharayurveda (Toxicology, Jurisprudence and Forensic Medicine)

Imparts training in toxicology, jurisprudence and forensic medicine, which explores the causes of unnatural behaviour and death. Ayurveda has nurtured and sustained a sophisticated system of toxicology that combats the effects of natural poisons posing long term or immediate threat to the continuity of the life process.

Department of Kriya Sharir (Physiology)

Deals with the study of normal physiology in human beings from both ancient and modern viewpoints with sufficient practical training. The corner stone of Ayurvedic physiology is the dosha-dhatu-mala siddhanta. This theory provides a holistic framework to understand how the body digests and metabolises food into subtle forms of matter and energy to create and maintain a delicately balanced internal environment that is conducive to the preservation of the life process.

Department of Panchakarma

Deals with the Purification therapies of Ayurveda and provides a basic understanding of the principles of Shodhana. Panchakarma includes Vamana, Virechana, Nasya, Basti karma & Raktha Mokshan, using a varied kinds of Ayurvedic medicines. As far as the treatment methods are concerned Ayurveda has described the use of Shamana (Palliative treatment) and Shodhana (Bio-Purifaction methods - Panchakarma) methods.

The Ayurvedic medical College has been operational since 2013 and has been treating patients with various types of ailments. The hospital is a fully equipped 100 bed facility with staff with decades of experience. The hospital features a fusion of the modern technology with conventional Ayurvedic techniques to provide patients the confidence in Ayurveda. We offer various treatments with personal care to all our patients.

- 8 Different OPD
- IPD
- X-RAY
- Well equipped Pathology and Emergency care for patients

Panchakarma

Panchakarma is one of the unique therapeutic modules to treat most of the chronic diseases that brings the equilibrium of dosha in the body by removing the toxins from the body by different sodhana procedures Viz.

Vamana
 Virechana
 Vasti
 Nasya
 Rakta Mokshana

The chances of reoccurrence of diseases are very rare in patients after panchakarma therapy. It also promotes the positive health by rejuvenating the new cells in the body. Almost all the panchakarma procedures are conducted in our hospital on OP and IP basis.

SALIENT FEATURES

- To bridge the gap of modern diagnostic procedures, facilities such as X-ray Unit, E.C.G., & Pathology Laboratory are available
- Panchakarma Theatres for Male & Female
- Surgical Theatre Equipped to perform minor surgeries like Excision of benign tumors, cysts,
 Incision & Drainage procedures, Certain Ano-rectal surgeries, Kshara sutra.

- Emergency Unit
- Ambulance facility
- Labour Room
- Yoga & Physiotherapy Unit
- There are male & female general wards, special rooms A/C and Non A/C and suites.
- In House Pharmacy Sankara Ayur Pharmacy caters to the Hospital needs on a routine basis and also many special medicines not available elsewhere are manufactured. These are cost effective medicines.
- Ayurvedic Herbal Garden with more than 1000 Species of Medicinal Plants.

- The Department of Dietetics and Nutrition takes care of the food supplied to the patients as per doctor's advice.
- Medicated water to drink is being supplied.

LIBRARY

The library at Mansarovar ayurvedic College is one of its kind, providing reading material and services of the highest quality. It is a center in itself that imbibes among the students the quest for knowledge and lifelong learning. The students as well as the staff are provided with innumerable scientific and research materials.

The Design and setup gives a suitable environment for studying. The library is supplied with good quality print material which includes foreign and Indian textbooks, reference books, scientific journals and periodicals. The entire library premise is enabled with high LAN and WI-FI, keeping pace with growing need and scientific update.

The college library also provides following facilities to its students and faculty

- Internet
- Access of the affiliated university
- National & International Books & Journals
- E-Journals and Textbooks (EBSCO)
- Scan and Xerox Facility

HOSTEL FACILITIES

Boys & Girls hostels are separately available in the college campus with good mess facilities. The hostel mess is closely monitored by the residential warden to ensure that the students get the best possible in terms of quality, hygiene and pricing. Adequate security arrangement has been made.

ANTI - RAGGING MEASURES

Mansarovar Ayurvedic College, Hospital & research Centre, has strict rules prohibiting and ensure zero tolerance towards students found involved in such activities. Strict actions including expelling the students involved are being adapted to make sure such incidence do not take place in any case.

NEWS-EVENTS

There are various activities conducted by the various departments of the Institution and the Hospital. The Hospital Provides free ayurvedic medical treatment for the Underprivileged

There are frequent Community Awareness - Free Check Up Camps to reach out to the masses. Apart form this there are number of sports, cultural, scientific & public realtions events organised in the 500 + seater AC auditorium, the open air Amphi-Theatre & various playgrounds & courts available in the Institution.
